

# Names as kinds: An analysis of naming verbs

**Paolo Acquaviva**

University College Dublin

**JANUARY 10, 2019 - 14:30-16:30**

Co-working room of the Dept. of Foreign Languages and Literatures (*Lingue Building, room M.12*)

**STUDENTI E DOCENTI SONO CORDIALMENTE INVITATI**

Abstract: The aim of the conference is to provide students with an illustration of a syntactic and semantic analysis of a well-defined phenomenon, demonstrating the application of specialized conceptual tools. The presentation focuses on a precise aspect of a very wide problem (proper names as a philosophical and linguistic problem), critically overviews the existing analyses, proposes a novel explanation and thereby illustrates notions such as small clause, linker, kind, rigidity through a concrete application. *More information* → Chiara Melloni, [chiara.melloni@univr.it](mailto:chiara.melloni@univr.it)

Iniziativa promossa da  
Corso di Dottorato in Letterature Straniere, Lingue e Linguistica  
in collaborazione con LaTeC – Laboratorio del Dipartimento Culture e Civiltà
